

After modernization
The Riviera Beach Next Generation Clean Energy Center

"This is a beautiful site. And I'm so glad that we're able to have this here. FPL is among one of our best community partners...So I'm proud to have FPL here, and I hope that you're going to be here for a long time to come. Thank you for doing what you're doing in our community."

-Cedrick Thomas, councilman, City of Riviera Beach

"A host of pollutants, like sulfur dioxide, nitrogen oxide, particulate matter, will be virtually eliminated with the improvements at this plant. And that's going to be a huge, huge direct benefit to the local community. So I applaud FPL for that. CO2 reductions are going to be slashed by 50 percent through this."

-George Cavros, Natural Resources Defense Council and Southern Alliance for Clean Energy
